

CARARE fact sheet

National Heritage Board of Poland

About us

The National Heritage Board of Poland is a cultural institution established by the Minister of Culture and National Heritage. Its main objective is to implement the State's policy concerning the protection of cultural heritage and its supervision according to the theory of sustainable development. In executing the goals listed above the Board:

- works out and implements methodological standards of research, documentation and conservation of monuments;
- keeps the National Inventory of Historical Monuments and conducts verification of the register of monuments in order to make the documentation fully correspond with reality;
- monitors the state of preservation of cultural heritage and estimates the threats to monuments;
- forms digital information resources about material cultural heritage;
- prepares conservation guidelines for the most valuable historical monuments that are endangered as well as expert's statements and opinions concerning the protection of historical objects;
- supervises archaeological rescue research on motorway routes;
- cooperates with police and similar services in order to prevent crime against historical and archaeological monuments;
- coordinates the procedure of submitting applications for nomination by the President of Poland particular sites and objects as the Monuments of History;
- educates on cultural heritage, conducts trainings for institutions and individuals engaged in the protection of cultural heritage
- coordinates the European Heritage Days, organises the International Day for Monuments and Sites;
- promotes volunteer works for salvaging monuments;
- prepares exhibitions and publishes a number of periodicals;
- manages the programme of the Minister of Culture and National Heritage which supports projects of digitalisation of monuments and museum objects.
