Ajuntament d'Alzira

**Is located in the Monastery of Santa María de la Murta de Alzira, in the heart of the Murta valley, a beautiful place framed between the Cavall de Bernat and les Agulles mountains.**

**The Tower was built in the 15th century, a century after the construction of the Jerónimos Monastery of Santa María de la Murta. Its purpose was clearly defensive against the attacks of Berber. From the expulsion of the Moors, and until the confiscation of the nineteenth century, when it was occupied, it underwent several remodeling, being annexed to the monastic complex. Today it is the most emblematic monument in the Murta Valley.**
